contents

Capsule reviews

F. Kamareddine

Third Computer Journal Lecture

The Ideal of Program Correctness

T. Hoare

Discussion on The Ideal of Program Correctness by Tony Hoare

Discussion on The Ideal of Program Correctness: Responses from Tony Hoare

T. Hoare

Turing Lecture 2006

Inclusion and Exclusion in the Digital World

C. Mairs

Mobile Computing

Proxy-based Regional Registration for Integrated Mobility and Service Management in Mobile IP Systems

I.-R. Chen, W. He and B. Gu

Workflow

Verifying Workflows with Cancellation Regions and OR-joins: An Approach Based on Relaxed Soundness and Invariants

H.M.W. Verbeek, W.M.P. Van Der Aalst and A.H.M. Ter Hofstede

Test Generation

Testing as Collecting of Evidence: An Integrated Approach to Test Generation for Finite State Machines

M. Kapus-Kolar

Distributed Computing

An Optimal Snap-Stabilizing Multi-Wave Algorithm

D. Bein, A.K. Datta and M.H. Karaata

State-Optimal Alternator for Uniform Synchronous Rings

T.-J. Liu and C.-L. Lee

Graphs

MAX-DENSITY Revisited: a Generalization and a More Efficient Algorithm

G.F. Georgakopoulos and K. Politopoulos

Edge-Orienting on Split, Planar and Treelike Graphs

W.C.-K. Yen
